"The subject of history is the life of peoples and of humanity. To catch and pin down in words - that is, to describe directly the life, not only of humanity, but even of a single people, appears to be impossible."

Leo Nikolaevich Tolstoi  
*War and Peace*

"The history of every country begins in the heart of a man or a woman."

Willa Sibert Cather  
*O Pioneers!*

The history in Memorial Hall's Andover Room is indeed close to the hearts of the men, women and children of Andover. Even those who read nothing more than the annotations in this booklet may find they feel closer than before to the people who came before them and who were responsible for making and writing the history of our Town.

As Andover celebrates the 350th Anniversary of its founding, the library staff is participating in the events by producing this bibliography. The purpose of the bibliography is to provide students and other interested readers with a guide to the Andover materials in the library's collections.

The library staff is always eager to help anyone with an interest in Andover's history. The librarians at the Reference Desk will be pleased to locate and make these materials available to you.
